Portable Hand Sinks

Eagle's **Portable Hand Sinks** require no additional plumbing. All you need is water and a 120-volt receptacle! Everything is self-contained, right down to the built-in scrap chute with waste can inside the cabinet!

A variety of sinks available, choose between sinks with "Biltmore Cherry" Wilsonart® laminated plywood cabinet base, or with heavy gauge stainless steel cabinet body. Then choose between sinks with single 10" x 14" stainless steel bowl, three stainless steel bowls, or one removable acrylic water plate (patent pending). Each choice then offers a sink with hot and cold water (utilizing hot water heater included), or with cold water only.

Standard Features

- Stainless steel top with box marine edge on front and ends, and with either 8-1/2"-high backsplash (on sinks with stainless bowls) or 10-1/4"-high backsplash (on sinks with acrylic water plate).
- Deck mount faucet with 8" spout and 1/4" turn handles.
- Towel rack accommodates standard rolled paper towels.
- Deck mount soap dispenser.
- 5-gallon fresh water tank.
- 7-gallon gray water tank.
- Units with hot & cold water include 2.5-gallon hot water heater and bracket.

Used with optional poly board, sink with removable acrylic water plate can be turned into a portable cutting area or prep station!

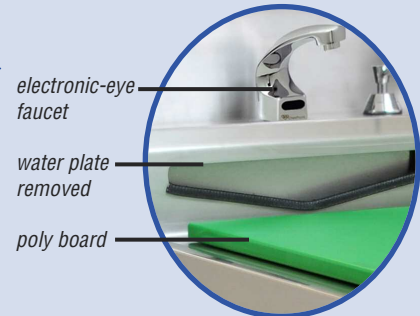

Remove the plate by simply lifting the front of the plate and unhooking the rear flange.

sink with removable water plate

sink with water plate removed and poly board added, ready for cutting or prep work!

How could you use an optional electronic-eye faucet without accidentally activating it?

Here's how...

To use the cutting board, the removable water plate must be removed from the unit. When the plate is removed, the faucet automatically remains off. This acts as a safety feature to prevent the faucet from being activated while doing prep work.

Portable Hand Sinks with Laminated Cabinet

Features plywood cabinet base with "Biltmore Cherry" Wilsonart® laminated millwork, locking doors with satin finish handles, and 3" recessed plate casters with rubber tread. Overall dimensions: 25" width, 28" length, 44-1/2" height.
