Stainless Steel Casework

Eagle MHC manufactures a broad line of stainless steel inset casework featuring a wide variety of drawer and door configurations to meet your laboratory requirements with all casework proudly made in the U.S.A.

Our casework construction and performance characteristics are in full compliance with SEFA 8M Metal standards.

In addition to our extensive casework product line, Eagle MHC offers stainless steel countertops, custom stainless steel fabrication, laboratory sinks, workstations, shelving and other storage solutions.

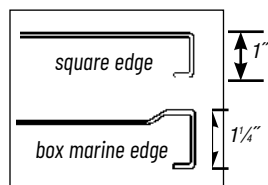

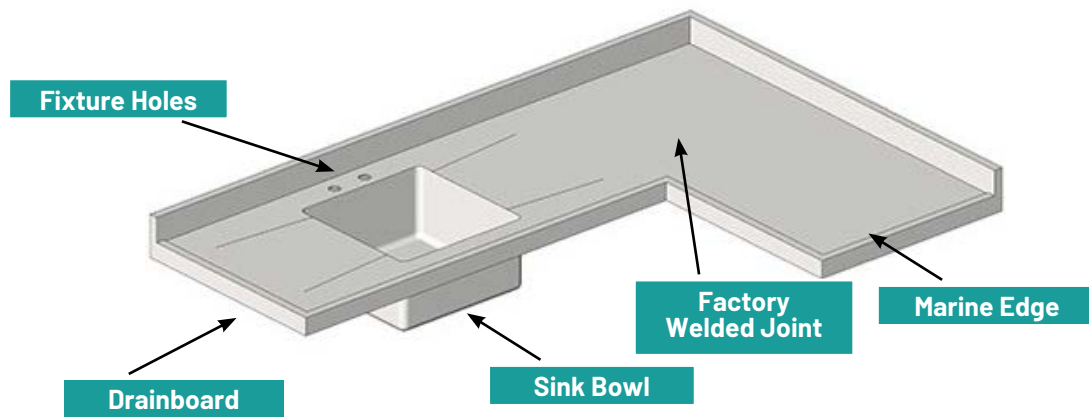

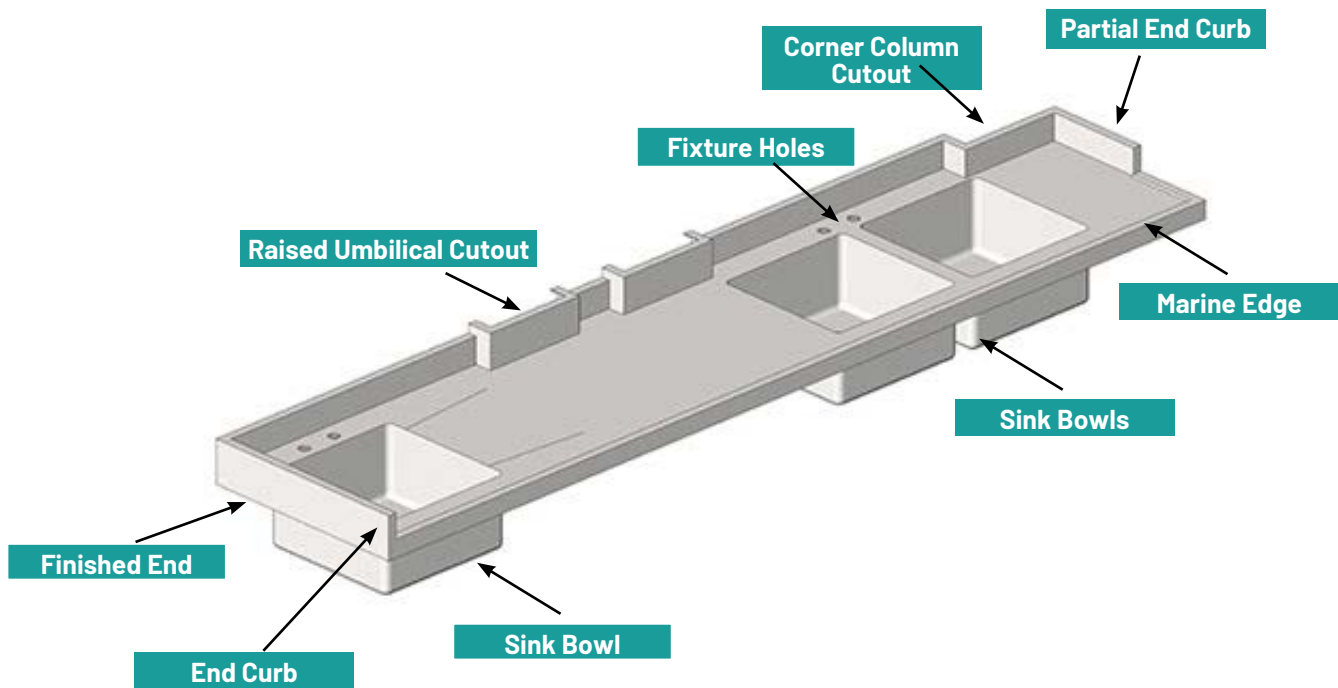

Stainless Steel Countertops

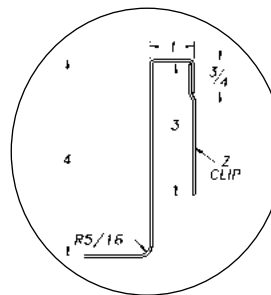

- **Material Options:** 14 or 16 gauge, Type 304 or 316 stainless steel. Additional gauges and grades available to meet functional or chemical-resistant requirements for specialized labs.
- **Edge Profile:** Standard Square or Box Marine edge unless otherwise specified (see Detail 1).
- **Splashes:** Manufactured to specification (see Details 2 & 3).
- **Finish:** Brushed #4 finish for a clean, professional appearance and enhanced durability.
- **Seams & Joints:** Mechanical hairline seam or field-welded joint available per specification. Maximum length without seam is 144" without end splash.
- **Sink Bowls:** Custom-fabricated in nearly any size or depth, with single or multiple compartments.
- **Corner Configurations:** L-shaped and U-shaped tops available per drawings. Corners are mitered and factory-welded. Maximum size without field joint is 96" x 96" for standard trailer shipment.
- **Reinforcement & Soundproofing:** Countertops include stainless steel hat channels or millwork underlayment. NSF-listed sprayed latex sound deadening available upon request.
- **Packaging:** Standard wood crating included in cost.

Stainless Steel Countertops

detail 1: edges

detail 2:
4" backsplash with 1" return and turndown.
Z-clip provided for wall attachment.

NOTE: - Drawings to be submitted for approval prior to fabrication using the latest version of AutoCad software.
They will be emailed in Adobe Acrobat format (.pdf) unless specified otherwise. AutoCad files (.dwg) are available upon request.

Height Adjustable Tables

Pinned Leg Adjustable Height Tables

- 2" (51mm) square legs with leveling mount.
- Adjustable from 30" to 37" (762 to 940mm) height.*
- 22" (559mm) or 28" (712mm) depth.*

Stainless Steel Tabletop

[DOWNLOAD SPEC](#)

* For units with tabletop, add 2" to width and depth, and 1" to adjustable height. Squared edge on all four sides.

*Stainless steel tabletop is 16 gauge type 304, with support channels and sound-deadening tape.

Adaptable Lab Benches

- All-stainless steel type 304 construction, with #4 brushed finish.
- Worksurface height is 36". Overall height 72".
- Frame and leg constructed with 2" square tubes.
- 16 gauge type 304 countertop, 1" thick, with square edge on all sides.
- Slotted rear uprights with two (2) 16 gauge lab-style shelves with 1-1/4" rear upturn, square edge front and upturned bookends.
- Legs provided with leveling mounts.
- Designed to meet SEFA recommended practices.

Shelving

Floor-Trak® High-Density Storage Systems

- Industrial-type bearings allow loaded units to glide effortlessly over track.
- Low profile, non-corrosive track constructed of stainless steel and anodized aluminum.
- Consolidates space.
- ADA-compliant.
- Simple and easy to install.
- Can be built double deep and not impede rollability.
- Easy to add-on additional tracks and units.
- Open construction allows for the use of cart covers, when required.
- Optional shim kit and foot brake kit available.
- Stainless Steel and Chrome Finishes.

[DOWNLOAD SHELVING BROCHURE](#)

High-Density Storage Systems

Master Trak®

Overhead Track High-Density Storage System

- Maximum storage in a minimum amount of space.
- Requires only single-aisle access.
- Allows longer track length without a stationary intermediate unit.
- Quick and easy assembly.
- Offered in a wide selection of sizes, with shelves ranging from 18" to 36" wide and 24" to 72" long, and overhead track ranging from 6' to 21' long.
- Stainless Steel and Chrome Finishes.

Master Trak®

Carts and Wire Shelving Units

- Open wire construction promotes higher visibility and permits greater air circulation.
- Reduces dust and contamination build-up.
- QuadTruss® design makes shelves up to 25% stronger.
- Posts are numbered on vertical 1" increments to ensure, fast, level assembly of shelves.
- Accessories available include dividers, ledges, label holders, enclosure panels, and more.

SpecFAB® Custom Capabilities

Custom Stainless Steel Solutions

Tailored Designs. Streamlined Process. Precision Results.

Whether you need specially fabricated equipment, modular components, or a combination of both, our custom stainless steel solutions are built to meet your exact specifications.

Our efficient design, approval, and fabrication process ensures fast turnaround, without compromising quality. Each unit can be pre-wired and pre-plumbed (when applicable), reducing on-site installation time and costs.

We deliver repeatable precision across multiple pieces, with shorter lead times and greater value.

Manufacturing Capabilities:

- Engineering and design assistance.
- Room layouts provided.
- Standard and custom built stainless products.
