Steril-Eze® Open Wire Surgical Case Carts

ASSEMBLY INSTRUCTIONS
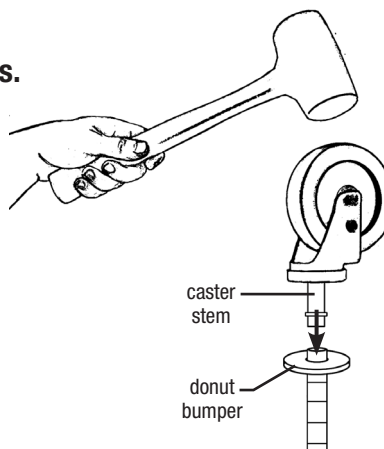

Thank you for your purchase. Before assembly, read this instruction sheet carefully.
After reading, be sure to store this instruction in a safe place, should it be needed for future reference.

### Step 1 - Secure casters to posts.

• Place donut bumpers onto bottom ends of posts.

• Place caster stems into bottom and drive caster using a hammer or mallet (several solid blows are usually required).
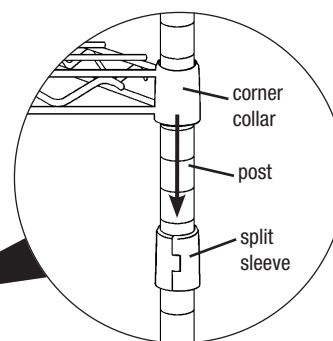

caster stem

donut bumper

Step 2 - Attach split sleeves (at 3˝ mark for bottom shelf) to posts.

• The wider part of the taper goes toward the bottom.

• Make sure rib on split sleeve is seated into a groove on the post.

Note: The number covered by the split sleeve indicates approximate height of shelf.

# Steril-Eze® Open Wire Surgical Case Carts

ASSEMBLY INSTRUCTIONS

Step 4: Mount additional shelves at desired heights.

Repeat Steps 2 & 3, working from bottom to top.

Step 5: Securely seat all shelves.

Note: Do NOT hammer directly on wire or corner.

Tap with rubber mallet.

Place board across shelf corners.

Before installing slides, determine where the clips will be located on the shelf:
- Hold slides together with adjoining tote box and place under wire shelf.
- Note locations of holes on slides. These holes will be the location of the clips.
- Set aside tote box and slides.

Step 6 - Attach clips to desired shelf (two clips per slide).

Hang clips on wires running left-to-right (not front-to-back).
