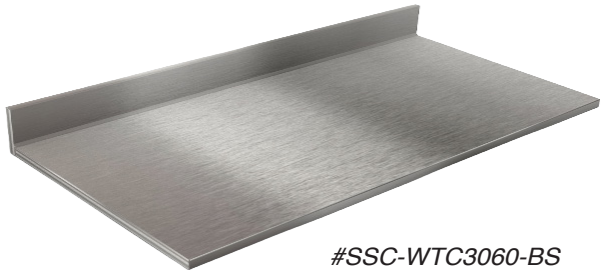
Specification Sheet

Stainless Steel Countertops

Short Form Specifications

Stainless Steel Countertops model _____. Standard work surfaces are fabricated from 16-gauge Type 304 stainless steel with a #4 satin finish, and are reinforced with stainless steel hat channels to ensure structural integrity. To minimize noise and vibration, sound-deadening tape is applied between the hat channels and the underside of the work surface. Work surfaces are designed to support 50 lbs per square foot, evenly distributed, when installed on SEFA-compliant laboratory-grade furniture.



#SSC-WTC3060-BS

flat top with turndown edges

MODELS:

24" Square Front Edge	30" Square Front Edge
