### Design and Construction Features—all carts

- Patented QuadTruss® design (patent #5,390,803) makes shelves up to 25% stronger and provides a retaining ledge for increased storage stability and product retention.
- Combination of hooks, shelves, and tote boxes give the versatility to hold all sizes and styles of catheter packages.
- Adjustable components. Shelves are vertically adjustable on one-inch increments, while the hook and bar assemblies can be adjusted to accommodate peel pouches 3" (76mm) or greater in width. Bars are readily removable.
- Hooks, shelf dividers, and tote boxes allow for easy organization. Label holders are provided to help in the organization of inventory. Deluxe models come standard with hooks, shelves and tote boxes, and all accessories can be adapted to create the custom system you require.
- 5" (127mm)-diameter swivel casters with polyurethane tread—two with brakes.

### Combination-Style Carts

- Three intermediate shelves, plus top and bottom shelves.
- Available in standard and deluxe styles.
- 24" width x 60" length x 69" height (610 x 1425 x 1753mm).

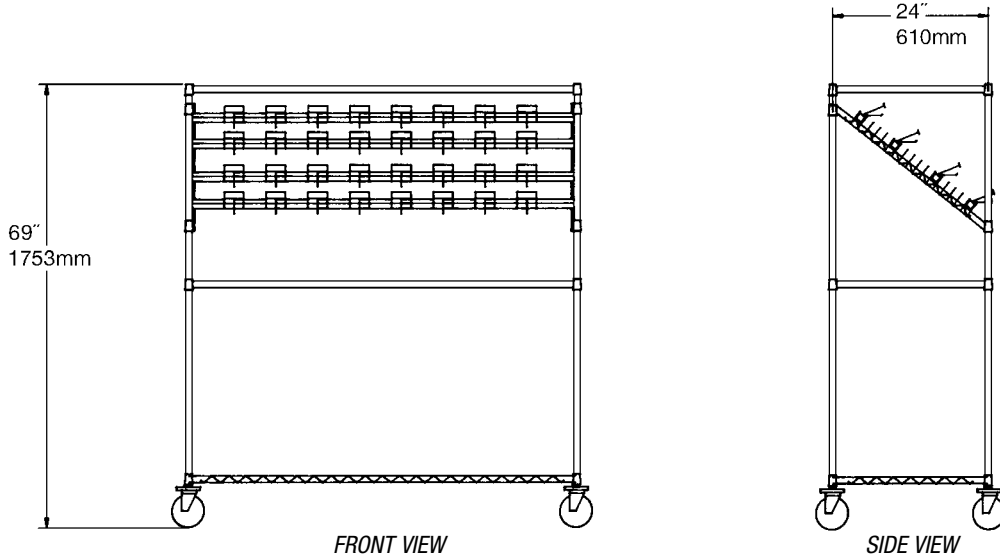

### Bulk Storage Carts

- Four bars, plus top and bottom shelves.
- Can be accessorized with bins, slides, tote boxes, and wire ledges.
- 24" (610mm) width, and 48" or 60" (1219 or 1524mm) length.
