Design & Construction Features:

- Compact, space saving design.
- All 300 series stainless steel construction.
- T&S #EC-3102 electric-eye faucet with battery backup. Requires 120-volt electrical outlet.
- Eyewash faucet OSHA, ANSI Z358.1 compliant: OSHA 29 CFR 1910.151(c).
- Emergency thermostatic mixing valve to ensure correct water temperature is maintained: 60°–100°F (15.6–37.8°C).
- Soap dispenser.
- Fully enclosed skirt with access panel.
- Multi-fold paper towel holder designed for Georgia-Pacific #20887.

New Hand Sink with Eyewash —ADA compliant

Introducing Eagle's newest addition: The Hand Sink with Built-In Eye/Face Wash! The unit's design saves space and fits easily into any work environment. Eye/face wash unit operates quickly by pulling swing arm down 90° over sink. Vandal-resistant ceramic valve limits wear and tear on moving parts, providing dependability and long lasting performance. Safe, steady water flow under varying water supply conditions, from 30 to 90 PSI, is assured by integral flow. Eye/face wash and spray heads contain an antimicrobial agent to protect the spray heads. Features twin perforated-disc eye/face wash heads with protective spray head covers. Gentle spray bathes eyes and face. Ceramic discs provide a precise 20° activation and deactivation angle, minimizing excessive splashing when the unit is activated. Chrome-plated brass pipe and fittings.

For custom configuration or fabrication needs, contact our **SpecFAB® Division**.
