Design and Construction Features

- Open wire design and slope of shelves allow instant identification and reduces dirt and dust build-up.
- Chrome plated wire shelves, each includes three dividers.
- Entire assembly can be put together in minutes without the use of any tools.
- Design and features provide a multitude of applications.
- Provided with four or five wire shelves, each adjustable on 1" (25mm) vertical increments without the use of tools. Slope of shelves is also adjustable from 0° to 30°, simply by raising or lowering front or back truss brace.
- All shelves and truss braces are chrome plated. Posts are also chrome plated 1" (25mm)-diameter 16 gauge steel tubular wall, which ensures structural strength and stability in any use.
- Entire assembly is further stabilized at the top and bottom with three-sided truss reinforcement braces for increased strength and stability.
- 5" (127mm) swivel casters are chrome plated with polyurethane tread.
- Optional additional dividers and shelves available.
- Optional shelf clamp provides an ensured means during transport. Two clips included per shelf.
