Design and Construction Features

- QuadTruss® design (patent #5,390,803) makes shelves up to 20% stronger and provides a retaining ledge for increased storage stability and product retention.
- Top and bottom inserts, which snap over the top and bottom frame, are PVC-coated for noise and vibration reduction.
- Chrome finished handles, frames, and bottom shelf.
- Aluminum split sleeves and conductive casters reduce static electrical charge.
- Each PVC-coated insert has 12 compartments, each measuring 4½" (114mm) square—any combination of gas cylinders can be stored.
- UL-recognized 5" (127mm)-diameter conductive casters—two with brake.
- Easy assembly and adjusted without the use of tools.
- Cart design conforms to NFPA-99.
