

Bench Power Center/Burn-In Cart

ASSEMBLY INSTRUCTIONS

CAUTION

INSPECT CONTENTS IMMEDIATELY AND FILE CLAIM WITH DELIVERING CARRIER FOR ANY DAMAGE. **SAVE YOUR BOX AND ALL PACKING MATERIALS.** YOU ARE RESPONSIBLE FOR DAMAGE TO YOUR UNIT IF RETURNED IMPROPERLY PACKED.

Thank you for your purchase. Before assembly, read this instruction manual carefully. After reading, be sure to store this instruction in a safe place, should it be needed for future reference.

1) Assemble caster cart, following directions for shelving.

IMPORTANT: After bottom shelf is in place, please note that cord cleat MUST be between the bottom & 2nd shelves or 2nd & 3rd shelves, as desired, on the post at the left of desired power strip location (figure 1). Shelves should be placed a maximum of 20" apart.

2) Attach MHPH power strips to shelves.

- With the unit upright, lay one MHPH power strip on each shelf (figure 1).
- Starting with the top shelf, align the power strip so that the threaded holes are centered at truss openings (figure 2), and loosely attach with #10-32 screws and backing plates (figure 2). Repeat on remaining strips.
- After all four power strips are held in place, align each in turn with the top of the shelf (figure 3), and tighten screws.

3) Locate and secure cord cleat where desired, using plastic split sleeves included.

- Snap split sleeves onto post at desired height.
- Run cord cleat down post and snug onto split sleeves.

4) Secure cords to post.

- Use plastic ties (included) to secure intermediate cords to adjacent post (figure 4).

(End) Assembly is complete.

IMPORTANT NOTES

- 15-amp maximum rating.
- Be sure cart is unplugged before moving.
- Always use with a three-prong grounded outlet.
- Shelves are lacquer-coated. DO NOT RELY ON POWER HARNESS TO GROUND INDIVIDUAL SHELVES.
