EAGLEbrite® Zinc

Zinc chloride
Clear Chromate
MasterSeal® Sealer

- NSF-listed for dry storage environments.
- Bright zinc chloride plating followed by clear chromate plating with MasterSeal® sealer for improved rust protection.

3-YEAR LIMITED WARRANTY

Standard Wire Shelving

Super-strong patented Quad-Truss®* design (patent #5,390,803) makes shelves up to 25% stronger and provides a retaining ledge for increased storage stability. Open-wire construction promotes higher visibility, allows light to pass through the shelves, permits greater air circulation which helps reduce moisture and dust build-up, and increases the effectiveness of fire-suppression systems. Posts are numbered on vertical 1" increments to help ensure fast and level assembly, and are available in a wide variety of heights.

starter unit with standard shelves

Quad-Adjust® Wire Shelving

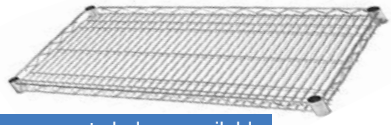
Features patented Quad-Truss®* design (patent #5,390,803), open-wire construction, and numbered posts. Shelves utilize special interlocking corners that fit in collars mounted to the posts, allowing addition or removal of a shelf without the need to disassemble the entire shelf unit. Optional ESD grounding clips available. One clip per shelf. Mounts to shelf and post.

* The patented Quad-Truss® system makes EAGLE wire shelving products the strongest in the industry.

Accessories -

Reverse Mat Shelves

Features built-in ledges. 250-lb. capacity. Available in chrome, stainless steel, and color epoxies.



reverse mat shelves available in 36″ and 48″ lengths and widths of 14″ to 24″.

Ledges and Dividers

Available in chrome or stainless steel. 8" dividers help keep shelf content organized, and 1" or 4" high ledges prevent contents from falling off shelf.

1″ ledge

divider

patented QuadTruss® design (Patent #5,390,803)

Plastic Label Holders

Snaps onto shelf edge. Provides easy identification of shelf contents or sections. Holds 1" to 1¼" high labels. Available in gray, black or clear.

SECURITY SHELVING

Security Modules

- Converts portion of shelf unit into a lockable enclosed security unit, adding versatility and flexibility.
- Includes end panels, rear panel, and door(s).
- Available with hinged doors or with single flip-up door.
- Fits in between two wire shelves spaced 20˝ apart.
- More than one module can be added, depending on unit's overall height.
- Available for 18", 21", and 24" wide shelving units.

flip up door

hinged door

mobile hinged door

Security Units

- Heavy-gauge open-wire construction keeps contents visible for quick inventory checks.
- Variety of sizes are available in stationary models or with casters for easy mobility.
- Quick-action locking feature with hasp for padlock.
- All units feature full-access double doors swinging out at approximately 270°.
- Plated finishes include EAGLEbrite® zinc, EAGLEgard® green epoxy with MICROGARD®, stainless steel or chrome for a durable easy-to-clean finish.

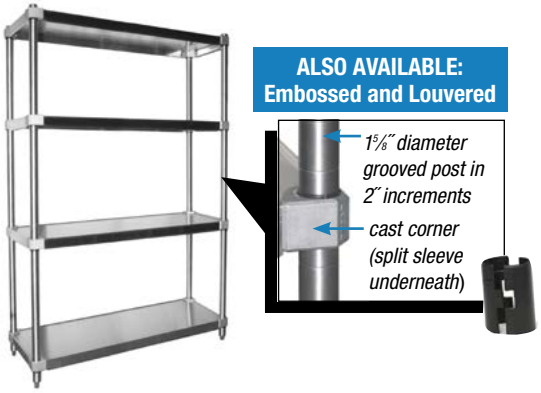
SHELVING

Solid Shelving

- Available in 18 gauge type 304 stainless steel or 18 gauge VALU-MASTER® gray epoxy coated galvanized steel.
- Shelves feature steel corner collars utilize split sleeves.
- Shelves can be adjusted in 1” increments, allowing you to update your shelving as often as you update your stock.
- Shelving remains accessible from all sides, while leveling feet help compensate for uneven flooring surfaces.

Quik-Set® Heavy Duty Solid Shelving

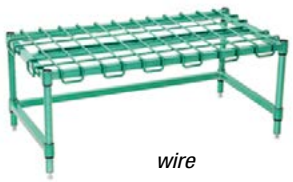
- Constructed of either 14 or 16 gauge type 300 stainless steel or galvanized steel coated with VALU-MASTER® gray epoxy.
- All sides of shelves are constructed with a 2” downturn and marine edge.
- Posts features an adjustable foot or is fitted for optional 5” diameter caster.
- No tools required for assembly.



Wire Dunnage Racks

(Eaglegard ®, chrome, stainless steel) dunnage shelf with 1”-diameter posts grooved on 1” centers, and three-sided frame to help support maximum weight loads. 14” height. Stationary or Mobile units, which include four 5” swivel casters (two with brake).

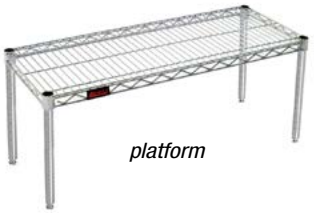
mobile



wire

Eagle Platform

(Eaglegard®, chrome, zinc). Wire shelf with patented Quad-Truss ® design assembled to 14”-high posts. 600-lb. weight capacity.



platform

Polymer Dunnage Racks

Constructed of durable polyethylene. Weight capacity ranges from 2,000 to 3,500 pounds.

polymer

Aluminum Dunnage Racks

All aluminum welded construction with 1½” square tubular legs with bottom plastic caps.

aluminum

Nesting Dunnage Racks

All aluminum welded construction. 2,700- to 3,200-lb. weight capacity. Racks are stackable.

QUADPLUS WIRE SHELVING

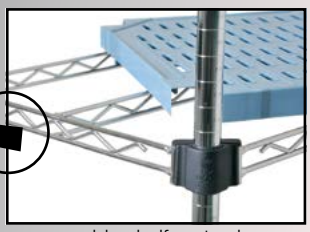
Quad-Adjust® Truss Frame…
Allows the addition or removal of a shelf without having to disassemble the entire shelf unit.

…or Standard Wire Truss Frame

blue shelf mats—louvered and solid—shown assembled as shelving unit

Blue or green polymer shelf mats available!

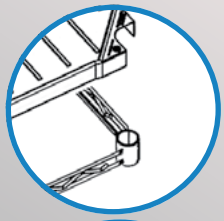
Mats snap in place!



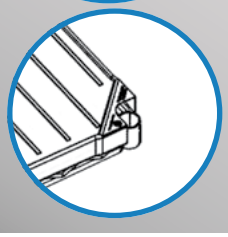
removable shelf mats shown with Quad-Adjust® wire truss frame

green louvered shelf mats shown assembled as shelving unit

Easy Assembly! No tools needed!



Step 1
Position polymer mats onto wire truss frame accordingly.



Step 2
Gently push each mat down along the front and rear to snap them into place.

- Mats snap into truss frame.
- Injection-molded polypropylene mats feature MICROGARD® antimicrobial protection.
- Easy cleaning.
- Dishwasher-safe.
- Blue mats come with truss frames coated with chrome or Valu-Master® gray epoxy finish.
- Green mats come with truss frames coated with EAGLEgard® epoxy or Valu-Gard® epoxy finish.
- Both style of truss frames can be fitted onto the same shelving unit.
- Set of four split sleeves (included with each truss frame) snap onto Eagle's 1"-diameter posts.
- Temperature rating of shelf mats: -20˚F to 125˚F.

MICROGARD®
is an antimicrobial agent which contains built-in protection to retard the growth of a broad range of bacteria, mold and mildew on shelf surface that causes stains, odors and degradation.

MATERIAL HANDLING CARTS

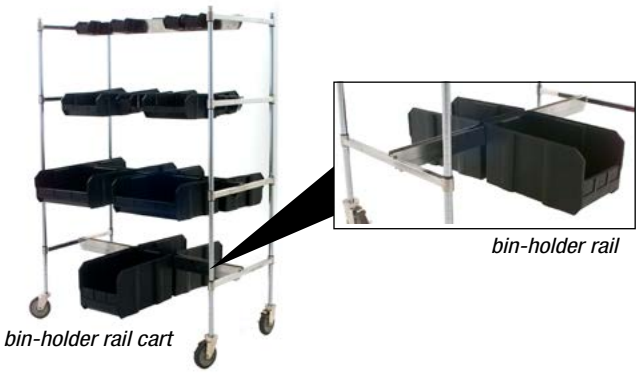
Double-Sided Bin-Holder Rails

Bin-holder rails are sold as an accessory or can be purchased with posts as a cart. Stainless steel finish. Bins can be attached to both sides of rail - no tools required. Available in 24" or 30" widths and 36" through 60" rail lengths. May be mixed with standard wire shelves.

Bin-holder rails can also be used on Eagle Floor-Trak® units.

Double-Sided Bin-Holder Rail Carts

Carts consist of four bin-holder rails, four - 63" posts with 5" diameter resilient casters. Posts are numbered in 1" increments to ensure fast and level assembly. 68" overall cart height.



bin-holder rail

bin-holder rail cart

Stem Caster Carts

These sturdy mobile four shelf carts are available in EAGLEbrite® zinc or chrome. Carts consist of four 63" posts, four wire shelves, plastic split sleeves, donut bumpers and 5" casters. Fast assembly without the use of tools.

stem caster cart

4-shelf burn in cart

Burn-In Carts

A mobile testing and preparation station for electronic products. Also for transporting products to and from testing areas. Cart is 28" wide, 64" long and 69" high. Features resilient swivel casters with donut bumpers. Standard power harness is designed to be used on 4-shelf units.

Utility Carts

A highly flexible and maneuverable transport product which can be configured with wire or solid shelves, or a combination of both. Handles are available in chrome plated steel or stainless steel. Standard casters are resilient swivel in 4" and 5" diameter depending on cart size. Medium duty supports up to 500 lbs., and heavy duty max capacity is 800 lbs. Available with two or three shelves. Newly added to our offering: wire basket shelves. Choose from 2 options: 1 wire basket shelf and 1 QuadTruss® wire shelf, or 2 wire basket shelves.

STORAGE SYSTEMS

Master Trak®

Overhead Track High-Density Storage System

- Maximum storage in a minimum amount of space.
- Requires only single-aisle access.
- Allows longer track length without a stationary intermediate unit.
- Quick and easy assembly.
- Offered in a wide selection of sizes, with shelves ranging from 18” to 36” wide and 24” to 72” long, and overhead track ranging from 6’ to 21’ long.

Now patented, uniqure roller assembly provide smooth operation without binding, which can occur in over track systems.
Patent #5,680,942

Floor-Trak® High-Density Storage Systems

- Industrial-type bearings allow loaded units to glide effortlessly over track.
- Low profile, non-corrosive track constructed of stainless steel and anodized aluminum.
- Consolidates space.
- ADA-compliant.
- Simple and easy to install.
- Can be built double deep and not impede rollability.
- Easy to add-on additional tracks and units.
- Open construction allows for the use of cart covers, when required.
- Optional shim kit and foot brake kit available.

Q-LEVER® HEAVY DUTY CANTILEVER SHELVING SYSTEMS

Starter and Add-On Units joined

5-tier starter unit

Q-LEVER® Shelving

Has a load bearing capacity of 600 lbs. per shelf and 1,000 lbs. on the bottom dunnage shelf. Unit safely holds up to 2,800 lbs.

Q-LEVER
CLEVER STORAGE SOLUTIONS
QUAD-TRUSS® • QUAD-PLUS® • QUAD-DUTY

Overview…

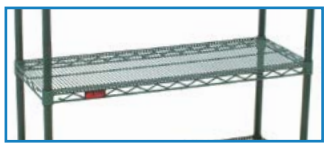
- Maximizes storage, free standing shelving allows access to all corners.
- With no front uprights, accessibility and productivity are improved.
- Uprights utilize 2” adjustment for shelf and accessory spacing.
- Shelves and accessories can be easily adjusted without tools.
- Can be expanded side to side with Add-on units which share a common upright with existing unit; saving cost and space.
- Units allow for sheet metal or wire overlays.
- Sizing available:
  - Widths: 18”, 21”, 24” and 30”.
  - Lengths: 24”, 30”, 36”, 42”, 48”, 54”, 60”, 66”and 72”.
  - Heights: 36”, 56”, 66”, 76”, and 86”.

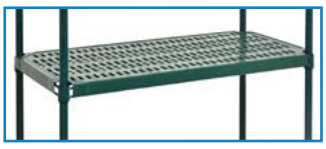
ADDITIONAL NOTES

- Evenly distribute the weight across each shelf, and keep heavier loads on the bottom.
- Unit must be bolted to the floor if bottom shelf is removed.
- Unit must be placed on a level surface to avoid a tipping hazard.

Q-LEVER® standard starter and add-on units feature standard wire shelves and dunnage shelves. The Q-LEVER® system can also accommodate...

Solid Shelves • Quad-PLUS® • Double Wire Mat Shelves • Reverse Mat Shelves • Dunnage Shelves…or a mixture of same based upon your storage needs.





Contact Factory for a quotation on a Q-LEVER® System utilizing these shelving options.

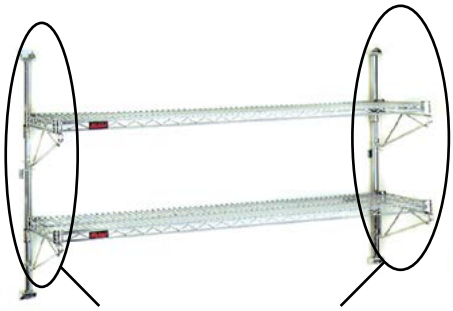
WALL SHELVES

Wall Mounted Shelving

- Post wall mounts are ideal where floor space is limited, maximizing storage capacity and minimizing clutter. Especially convenient for mounting over work surfaces.
- Adjustable shelving components are designed to allow the intermixing of shelf widths or customizing of units to fit every specification need.
- Stationary wall mounts are designed and offered complete with mounting brackets, engineered for fixed applications where vertical adjustments are not required.



adjustable post wire wall mounts (end units shown)

Wire or Solid Snap-n-Slide®

- Wire brackets can be mounted to studs – no wall backing required.
- Upturn on rear of shelf and downturn on front of shelf.
- Heavy gauge wire construction.

GOWNING RACKS

Gowning Racks with Hanger Rail

These racks are designed for efficient storage of garments in any environment. Available in stainless steel. The stainless steel construction offers a non-contaminating surface that eliminates particle shedding, for the most demanding requirements. 24" width, 73" height, and available in 48" to 84" lengths. Hanger slots are 2½" standard centers. Other center configurations are available.

single

double

cantilevered

Gowning Racks with Wire Shelving Components

These racks incorporate standard wire shelving featuring patented QuadTruss® design, with specially designed gown storage options. They offer a more economical rack option in less demanding environments. Available in chrome-plated steel as well as stainless steel models. Available in 14" and 24" widths, and 48" to 72" lengths. 86" height.

Door is double-panel stainless steel, with magnetic catch, and removable for cleaning. All units are 24" end-to-end,15" front-to-back.

Vertical Storage Cabinets

All stainless steel type 304 enclosed cabinet. Four adjustable shelves, 18" or 24"-deep by 36"- or 48"-long. Available with sloped top for laminar flow. Mobile units also available.

The Eagle Advantage™ begins right here in our state of the art manufacturing facility – with 14 acres under one roof – where the most comprehensive broadline product offering in the industry takes shape. This all-inclusive design and production capability offers distinct advantages to our customers. Streamlined ordering and shipping substantially reduce freight, receiving, installation and administrative costs.

Supporting it all is a framework of highly responsive customer service representatives, the most innovative, versatile and durable equipment available on the market today, a fleet of company-owned trucks, plus amply stocked distribution centers in strategic locations nationwide - which guarantees product availability and delivery. Together, it adds up to product excellence enhanced by measurable cost savings and value. We call it *The Eagle Advantage™* and you can profit from it.
