## Gowning Racks - with Hanger Rail

These racks are designed for efficient storage of garments in the cleanroom. Available in stainless steel finish. The stainless steel construction offers a non-contaminating surface that eliminates particle shedding. 24" width, 73" height, and available in 48" to 84" lengths. Hanger slots are standard 2½" centers. Other center configurations are available.

## Gowning Racks - with Wire Shelving Components

These racks incorporate standard wire shelving featuring patented QuadTruss® design, with specially designed gown storage options. They offer a more economical rack option in less demanding environments. Available in chrome-plated steel as well as stainless steel models. Available in 14" and 24" widths, and 48" to 72" lengths. 86" height.

Wall Gowning Racks  
Spec EG04.08

### Racks with Hanger Slots

This gowning rack is available in lengths of 48" [17 hangers], 60" [22 hangers], or 72" [27 hangers] and width of 24". Wall mounted, and includes open wire top shelf for laminar flow. Available in stainless steel finish or chrome finish. Hangers are optional.

### Racks with Hanger Tube

Like the freestanding model, this model features a 1" diameter tubular bar which mounts easily to underside of wire shelf and comes in width of 18" and lengths of 48", 60", and 72". Wire design facilitates laminar flow. Available in stainless steel finish or chrome finish.

### Racks with Hooks

This compact design is 14" in width and comes in lengths of 48" [30 hooks], 60" [38 hooks] or 72" [46 hooks]. Available in stainless steel finish or chrome finish.

## Hangers and Hanger Bar Kits

### Open Loop Hangers

For all gowning rack models that employ hangers. Available in chrome finish, or stainless steel finish.

### Closed Loop Hangers

For use with tubular gowning racks. Hangers are not removable from rack. Available in chrome finish, or stainless steel finish.

### Slanted Hanger Bar Kits

Used to retrofit existing shelving into freestanding or wall-mounted gowning racks. Hanger slots on 2 1/2" centers. 24" shelf width required. Available in chrome finish, or stainless steel finish.

### Tubular Hanger Bar Kits

Rack employs both closed loop hangers and open loop hangers. Available in chrome finish, or stainless steel finish. Width 18", and length ranges from 48" to 72".

### Solid Gowning Bench

Benches include flanged stainless steel foot plates for convenient attachment to the floor. Available in brushed 304 stainless steel finish. Widths of 9" and 12", lengths up to 84", and height of 17".

heavy duty gowning bench  
with adjustable 4-sided frame

### EL Series Heavy Duty Solid Gowning Bench

Heavy-duty benches feature hat channels on underside of seat. Stainless steel foot plates. 14 gauge type 304 stainless steel. 16" front-to-rear, lengths up to 96", and 17" height. Available with welded or adjustable h-frame, or with adjustable 4-sided frame.

gowning bench with standard undershelf  
(shown with optional additional shelf and  
dividers)

### Gowning Bench with Undershelf Storage

Available with perforated or solid seat. Wire undershelves offer optional bootie storage. These units come complete with designated seat, legs, foot plates, and one wire undershelf (additional wire shelves and dividers are optional). Available in stainless steel finish. Seating area is 18" wide, and wire unshelf is 14" wide. Length up to 72" and height of 19".

wire gowning bench

### Wire Gowning Bench

Economical gowning bench with wire shelving components offers 62% laminar flow. Ideal for less demanding environments or for use during construction as the room is brought into clean. All units feature four 18" legs with foot plates, one three-sided channel frame, and one wire shelf. 14" width, 18" height, and available in lengths up to 72".

## Carts and Wire Shelving Units

Open wire construction promotes higher visibility and permits greater air circulation, which reduces dust and contamination build-up. QuadTruss® design makes shelves up to 25% stronger. Posts are numbered on vertical 1" increments to ensure, fast, level assembly of shelves and maximum flexibility for unit/cart configuration. Numerous sizes and combinations are available. Accessories available include dividers, ledges, label holders, enclosure panels, and more.

## Hand Sinks

Eagle MHC Cleanroom Hand Sinks – Engineered for Contamination Control

- 40+ model options, including hands-free and fully integrated units
- Available with Microgard® antimicrobial protection to inhibit microbial growth
- Exclusive deep-drawn positive-drain bowl ensures full water evacuation—ideal for cleanroom protocols
- Constructed from type 304 stainless steel, all-welded for seamless integrity
- One-piece, deep-drawn bowl eliminates crevices where contaminants could collect
- Choose from wall-mount or pedestal styles
- Select models include touchless operation, built-in soap/towel dispensers, and water heating

# CLEANROOM FURNITURE SOLUTIONS

## Stainless Steel Countertops

**Engineered for High-Performance Labs & Specialized Environments**

### Material Options:

- 16 or 14 gauge, Type 304 or 316 stainless steel
- Other gauges and grades available for chemical-resistant or specialty applications

### Design Features:

- Standard front edge: Square or Box Marine (custom options available)
- Back and end splashes built to spec
- All work surfaces and sink bowls include coved sanitary corners

### Seams & Sizing:

- Seam options: Mechanical hairline or field-welded per your specs
- Max seamless length: 144" (Subtract 5½" for each end splash required)

### Custom Sink Bowls:

- Available in nearly any size or depth
- Single or multi-compartment configurations
- Faucet & Plumbing Accommodations:
  - Backsplash-mounted faucets: Require 2" minimum splash depth
  - Deck-mounted faucet holes: Centered 1¼" from sink bowl edge

### Layout Options:

- L-shaped and U-shaped tops built to your drawings
- Factory-mitered and welded corners
- Max size for single-shipment: 101"H x 96"W (ground transport)

### Additional Features:

- Reinforced with stainless steel hat channels
- Optional NSF-listed sprayed latex sound deadening
- Standard wood crating included at no extra cost

## Stainless Steel Inset Casework

Eagle MHC offers a comprehensive line of stainless steel inset casework designed to meet the diverse needs of today's laboratories. With a wide selection of drawer and door configurations, our casework provides flexibility, durability, and cleanroom-grade performance.

**Our product range includes:** Wall Cabinets, Base Cabinets (Door, Drawer, Combo, and Sink Bases) Tall Cabinets, Pegboards, Bench Frames, Filler Panels, and Strips.

All Eagle MHC casework is proudly manufactured in the U.S.A. and built to meet or exceed SEFA 8M Metal standards for laboratory construction and performance.

## **Shelf Select™ No-Cost Shelving Design and Layout Service**

**You total up a few measurements.**

**We'll send you a total shelving solution...**

Looking for some help to configure your storage space for maximum utilization? Let Eagle help. You give us the details of your space and requirements and we'll provide you with a plan view, elevation and quotation – It's Simple!

## **GET STARTED**

### **You provide us with:**

- Dimensions of the available space.
- Number of shelves needed per unit.
- Indicate stationary , mobile or high density shelving.
- Post heights.
- Additional specific or pertinent storage requirements.
- Reference Shelf Select in your email subject line

## **HOW IT WORKS**

### **STEP ONE - Plan View**

After reviewing your provided information and clarifying any other information, we'll provide you with a plan view layout of the proposed shelving systems to fit your space and requirements.

### **STEP TWO - Elevation View**

Next you'll receive an elevation view, a detailed drawing of how the assembled shelving will appear in the final phase.

### **STEP THREE - Quotation**

The quotation includes model numbers, net prices and shipping weights for all components in the specified job.

### **STEP FOUR - Installed Job**

Thanks to the detailed Eagle plan and elevation views you provided to your installer, your shelving is installed correctly in a short timeframe.

## SpecFAB® Custom Capabilities

### Custom Stainless Steel Solutions

#### Tailored Designs. Streamlined Process. Precision Results.

Whether you need specially fabricated equipment, modular components, or a combination of both, our custom stainless steel solutions are built to meet your exact specifications.

Our efficient design, approval, and fabrication process ensures fast turnaround, without compromising quality. Each unit can be pre-wired and pre-plumbed (when applicable), reducing on-site installation time and costs.

We deliver repeatable precision across multiple pieces, with shorter lead times and greater value.

### Manufacturing Capabilities:

- Engineering and design assistance.
- Room layouts provided.
- Standard and custom built stainless products.
- Small to large order capacities.
- Designed and built to industry standards.
- Quality controlled throughout process.
- In-house equipment capabilities and standard products provide economical solutions.
